# PROJECT

**Project Id**: IT/A/001

**Project Title**: Fitness Tracker App

**Project Description** : Develop a fitness tracker app that allows users to log their workouts, track progress, and set fitness goals. The app should provide analytics based on user input, such as calories burned, workout duration, and progress over time.

**Key Features to Implement:**

1. Workout logging form
2. Progress tracker with charts
3. Goal setting functionality
4. Workout history view
5. Responsive design

**Timeline**: 3 Week(s)

**Technology needs to used:**

| S. No | Html 5 | | | CSS3 | | | Java Script | | |
|-------|---------|------|-------|------------------|------|------------------|----------------|--------|-----|
| 1 | Div/span | form | table | Display/position | flex | Pseudo-class | Async Await | Reduce | map |
